Mr. Patel,

We have reviewed new source #2191 for 425 Union Blvd, West Islip, NY to go to HCP and have the following comments:

- Please note that Sample Stockpile SB-22 has PCB-1254 result of 6.8ppm and may be subject to regulation under the Toxic Substances Control Act (TSCA) which is administered and implemented by the USEPA. DEP recommends that you contact Kelly Bunker, the regional coordinator for the USEPA's TSCA program, by telephone or email at 215.814.2177, or Bunker.kelly@epa.gov, respectively, prior to accepting the fill for beneficial use at your facility.
- Sample Stockpile SB-22 has dilutions for various analysis up to 200x. There are several parameters that are non-detect but the RL is significantly over the regulated fill limits.
